to Manhattan Beach. It costs 5c on the B. R. T. to Sheeps-

head Bay Station and then an extra 5c on the Marine Rail-

way running entirely through the property. The residents

pay the extra 5c cheerfully because it is Brooklyn's finest

all-year residential locality, with all the advantages of the ocean view and breezes, and the extra fare protects them from the

crowds. I always advise my customers who want a specula-

tion for quick profit to get near a five-cent fare, and for

those who want slower profits but a select residential loca-

# Don't Say There Is a House Shortage—See Bossert First

You who have been complaining of the scarcity of apartments and the high rentals demanded for them; you who have spent weary days hunting for a house in the suburbs, what are you going to do? Stay in the same place and pay the higher rental demanded, or take any house you can get in the suburbs and regret it later? Rents are sure to be higher yet.

The thing to do is to get a new home of your own-just the kind of a home you want. But you need not worry about building it yourself and paying the high cost of labor and the high cost of materials which have jumped 300% in the last few years. Buy a plot of land wherever you want to live and then come to Boscert. Vacant real estate is cheap. It has not advanced up to now, but it is sure to go up soon.

We will build your home in our factory, and erect it on your property.

By having Bossert build your house, you will know before you spend a dollar what 75% of your total investment will be-a thing you can never know if you build on the site in the old hand labor way until the building is finished. The other 25% of cost is for work which naturally must be done on the site, excavating, plumbing, masonry, wiring and interior decorating. These we do not contract for.

and substantial homes we are building.

We have catalogues which will be mailed at your request for 18c, but it is better to call at our plant to see the actual houses already up.
